

## **Niconé – Love it or Leave it**

You either love him or you hate him. Or, well, his music. But honestly—there's no in-between. Niconé does whatever the hell he wants. Played everywhere, kicked out of everywhere. Not mainstream, but still kind of iconic.

Unpopular popular, you get me? The guy's a legend—whether you like it or not. Always against the grain, but always on beat. It's that fine line between genius and madness, you know? Sometimes it all blows up, other times it goes so far forward you can't even keep up.

That's Niconé: music that hits, energy that pulls you in—or totally freaks you out. No compromises. Come feel the flash. The beat. The love.  
Or just stay away.
